# Lingual is wunderbar!

DEAR LINGUAL ORTHODONTIC FRIENDS,  
It is a great honor and pleasure to invite so many lingual orthodontic practitioners and presenters in Frankfurt on the occasion of our 10<sup>th</sup> ESLO Congress of which I am tremendously proud to be the President.

Lingual Orthodontics has been instrumental in helping make major improvements in numerous areas related to our specialty such as customized brackets; computer based positioning, virtual set ups, self ligating systems and interdisciplinary treatment and combinations like temporary anchorage devices. These invisible forms of treatment have significantly boosted adult and teenager orthodontics thus reflecting the aesthetic desires of our contemporary society. It has been ten years since President Dirk Wiechmann held the 5<sup>th</sup> ESLO Congress in Berlin and once again it is a special privilege to host the ESLO in Germany. We must give credit to Dirk that, as one of the most recognized lingual experts in the world, Lingual treatment has, particularly in Germany and Europe, continued to be such a success.

I would like to extend my warmest greetings to you all at this year's Congress, the most important and exciting event in the calendar for our society. The ESLO Organizing Committee has made every effort to ensure participants again have a pleasant and rewarding stay in Germany from every standpoint: scientific, collegial, leisure and accommodation.

The last Congress held in London showed that the holding of lectures and presentations was scientifically very productive and highly appreciated. This year the ESLO Scientific Committee is pleased to announce Toshiaki Hiro as chairing the Pre Congress course and the hosting of a further more than ten keynote and over thirty other international experts as lecture speakers.

In advance of the Congress I would like to take the opportunity to thank the large number of people for their tremendous efforts and support which will make the event such a memorable success. These include friends, colleagues, the entire team from Colloquium for the perfect congress organization as well as the numerous industry partners who have sponsored our event with their generous donations.

I am particularly indebted to my friend and Past President, Germain Becker, for his devotion, tireless support and amicable help without which the Congress would not be an eventual success. A tribute is also in order for our Treasurer, Michel Steil, for his steadfast work efforts in handling ESLO's financial affairs. "LINGUAL IS WUNDERBAR" is the motto of the 10<sup>th</sup> ESLO Congress. This expresses in the German language nothing else than Lingual is delightful, lovely, miraculous, terrific, marvelous – wonderful!

The dual message being, on the one hand, that the lingual technique provides fantastic orthodontic treatment options and, on the other, the great opportunity of meeting colleagues and friends in the exciting city of Frankfurt.

A warm welcome awaits you in the most dynamic and international city in Germany with an imposing skyline, the largest financial and trade fair centre on the continent, known as the historical city of coronations and the cultural city of Goethe and last but not least the enjoyment of the ESLO Congress 2012!

I am looking forward to having the pleasure of seeing you in Frankfurt on June 28<sup>th</sup> 2012!

Warmest Greetings

Thomas DRECHSLER
